WASHINGTON, Oct. 15 .- Samples of the insurance policy which the government will write for its soldiers and sallors were made public today at the war risk insurance bureau of the treasury department. Plans for placing the policies into effect will be outlined here next Tuesday at a conference of treasury officials with representatives of the navy and ofticers and enlisted men at the thirtytwo cantonments.

Details of the policy disclose that laks will be written upon the lives of men and women between the ages of 15 and 65 in all branches of the army, navy, marine corps, naval volunteers, nurses "and any service serving with the army and navy." Announcement was made also that "rates at ages higher or

Putting the Cat Out at Night.

The practice of turning the cat out of doors at night is as cruel as it is unnecessary. No animal is fonder of warmth and comfort, and the pet's happiness certainly is not increased by a night spent outside in cold and damp-

If as much energy was exhausted in keeping the cat indoors as too often is expended in putting her out, how great would be the boon to human nerves and unfortunate wild things! All felines are normally nocturnal, and it is at night, if ever, that a curb on their activities is needed.-Lee S. Crandall. in "Pets."

Oddly Expressed.

In one of his letters William Brookheld tells how as school inspector he had to give an examination on physical "What was I to do? I knew nothing about hydrogen or oxygen or my other 'gen.' So I set them a paper which I called 'applied science.' One of my questions was, What would you do to cure a cold in the head? A young lady answered, 'I should put my feet into hot water till you were in a profuse perspiration."

DEMURRER SUSTAINED

Judge Averill of the Fifth Judicial court has handed down the following decision in the case of Peter Fabbi vs. S. Rosa et al:

The ground of the demurrer is that the complaint states no cause of action against B. Cerutti as administrator of the state of F. Ratto, de-

The first point on argument was that nothing in the complaint shows that any of the property against which foreclosure is sought is in the possession of or under the contro

of Crutti as administrator, I fine tory or reported, and none was cited I cannot see that it makes any dif makers of the note upon which a mortgage is founded. The complaint

The second point was that the complaint falls to state that a claim tion 5970, Revised Laws, reads;

"No bolder of any claim against thereon unless it shall have been first filed, and under the conditions

This seems positive, and I find nothing in the law to justify a departure from its command in this instance. If no action can be main tained until the claim is filed, the same condition exists as though there were no cause of action, bemuse the case cannot proceed. It is not unlikely that a motion to strike the complaint would reach the same point more effectually, but the proceeding by demurrer has the virtue of affording the plaintiff a chance to amend if he can,

The demurrer is sustained. Ten days are allowed for the amendment of the complaint.

A REALISTIC ANSWER.

The Sentry Didn't Have to Go Into Details With the Officer.

During one of Haig's attacks on the Hindenburg line a "Minnie" had come over and knocked all the stuffing out of a sentry. He staggered to his feet-except for the tremendous shaking, prac-Heally unburt-fighting for breath, which he could not get back for some While he was so standing a young officer, newly out, turned the corner of the trench.
